

# DANPLEX

Danplex hearing-assessment equipment

## Danplex 200a

This compact, yet versatile diagnostic audiometer has two independent channels for air, bone, and speech testing. Its lightweight design lets you easily move it from one location to another - both inside and outside the clinic. The extensive test battery makes the Danplex 200a perfect for both dispensers and clinicians.

### Features

- Air: 125-12,500 Hz
- High-frequency (option): up to 16,000 Hz
- Bone: 250-8,000 Hz
- Speech audiometry testing (monaural or binaural)
- Contralateral masking: narrow-band noise or white noise
- Optional special tests: SISI, Stenger Fowler, Hearing Instrument Simulation
- Talkover / talkback communication
- Internal amplifier
- Portable and lightweight (4,5 kg, 9,9 lbs.)
- PC interface (RS232)
