

DANPLEX

Danplex hearing-assessment equipment

Danplex 300a

Air and bone audiometry are coupled with fast and efficient operation in this attractive and highly portable unit. The "one button/one function" design provides immediate access without digging through complicated menus. The Danplex 300a comes with manual and automatic screening and threshold tests, plus built-in storage capacity for up to 75 full audiograms.

Features

- Air: 125-8,000 Hz
- Bone: 250-8,000 Hz
- Masking: narrow-band noise
- Masking assistant
- Auto threshold and screening testing
- Internal storage of up to 75 audiograms
- Programmable user settings
- Optional special tests: SISI, Stenger, Fowler
- Built-in talkover communication
- Portable and lightweight (4 kg / 8.8 lb)
- PC interface (RS232)
